

**1974 Volkswagen Station Wagon**

# 1974 Volkswagen Station Wagon

It's been called a bus. It's been called a box. Actually, it's a little of both. There's optional seating for up to nine adults. Like a bus. And with a new optional drop-down rear seat there's so much rear luggage space it's like a—well, like a box. A big box. Last year we gave you optional automatic transmission. This year we made the lock and handle on the sliding door easier to operate. And upped the power a notch. And like every Volkswagen, the bus/box comes this year covered with our VW Owner's Security Blanket with Computer Analysis.\* A very snug blanket indeed.

\*VW Owner's Security Blanket with Computer Analysis.

First, we guarantee your car for 12 months or 20,000 miles, whichever comes first. All you do is show reasonable care and maintain the car according to our schedule. Except for fluids, filters and lubricants, if *anything* goes wrong during that period and it's our fault we fix it free of charge. And free of charge means free of charge—parts and labor.

In addition: Computer Analysis. During your warranty period your car is entitled to free computer check-ups.

In addition: Our Fault Transportation. If we have to keep your car overnight to make warranty repairs we'll lend you a car free of charge.

In addition: Express Care. If we can fix your car in half an hour we'll do it—then and there.

We check it for free. We fix it for free. And if we can't fix it the same day we give you wheels for free.

VW Owner's Security Blanket. It covers a lot.

See us for details.

SPECIFICATIONS		"VOLKSWAGEN STATION WAGON"
<b>ENGINE:</b>	Type	4 cycle, air-cooled, rear mount
	No. cylinders	4 cyl., opposed
	Bore	3.66 inches
	Stroke	2.59 inches
	Displacement	109.5 cubic inches
	SAE Net H.P.	65/4200 rpm
	Max. Torque, SAE Net	91 ft. lbs./3200 rpm
	Compression ratio	7.3:1
	Carburetion	Twin downdraft, auto. choke w/combined idling circuit
	<b>TRANSMISSION &amp; DIFFERENTIAL:</b>	Type
No. speeds		4 forward, 1 reverse
