# VW Station Wagon.

## The extraordinary alternative to an ordinary wagon or van.

Need a people carrier? VW Station Wagon comes with standard seating for 7 adults, for 9 optionally.

Yet it's an easily parkable 177.4" overall. And if you think that's extraordinary for a vehicle that carries so many people, wait until you see the E.P.A. mileage estimates\*—26 mpg highway, 16 mpg in the city.

Need an anything carrier, too? Fold down the rear seatback or take out both rear seats. Result: 176 cubic feet of total cargo space. And the side door slides to a cavernous 41" x 48" opening.

Need performance? How about a powerful 2-liter, fuel injected, air cooled engine. Rear wheel drive. Four wheel independent suspension. Power-assisted disc brakes up front. And long life radial tires. All standard.

Need a bit of luxury, too? Just look inside our extraordinary VW Station Wagon. You'll find big, full-size seating, upholstery that's as sturdy as it is comfortable, an interior that's finished to a high standard of quality, and an electrically heated rear window defogger.

Need an alternative that's anything but ordinary? You've found it. The truly extraordinary VW Station Wagon.
