Police, Fire Brigade and ambulances require unconditional priority over other road users in all emergency situations.

Road clearance and breakdown vehicles must be clearly recognizable to enable them to carry out their duties without hindrance.

All therefore should be equipped with a signal lamp with effective range — a rotating-beam lamp. Extremely bright beam. Intensive light flashes. Also easily recognizable by day (even in sunlight). Powerful range.

SWBL 2 2XW 001 980-00

HELLA Warning Flasher Lamp with transistorized flasher unit. Range over 3,000 yards. Intensive amber warning beam also clearly visible by day. Electronic control, shockproof, extremely reliable. Powerful white light for night repairs. Special battery checking device. Perfectly stable under extremely windy conditions. Lamps are fed by 5 high-performance, singlecell, leak-proof batteries of 1.5 V (U 2 type). Shockproof styropor container which protects the batteries against extreme temperatures.

SWBL 8-2 2XW 003 002-02

HELLA Warning Flasher Lamp with transistorized flasher unit and mirror-coated reflector Matches to a very large extent the

Matches to a very large extent the SWBL 2 as regards efficiency and operational reliability. Range over 3,000 yards. Electronically controlled. Shock proof. With battery testing device. Perfectly stable under extremely windy conditions. The extremely powerful light is ensured by 5 high-performance, single-cell, leak-proof batteries of 1.5 V (U 2 type). Shockproof styropor container.

16/209 8XT 002 119-00

Adaptor for mounting rotating-beam lamp KL 7/1 on flat vehicle roof. 16/208 adaptor for KL 8/1 type rotating-beam lamp.

16/210 9XS 096 435-00

Mounting Bush. With built-in socket and protective rubber cap. For mounting KL 6/1 lamp at side of vehicle.

15/16 9GD 097 180-00

Rubber Gasket. For adapting KL 7/1 lamp to curved roof surfaces.

15/17 9GD 097 184-00

Rubber Gasket. For adapting KL 8/1 lamp to curved roof surfaces.

56/36 8HG 002 242-00

Magnetic Base consisting of a square magnetic plate for supporting rotating-beam lamp KL 7/1. Dimensions: 10"x10" (255x255 mm). With universal standard car plug 12/32 and rubber grommet for cable outlet in lamp body.

56/1 8HG 002 366-00

Base Plate for mounting KL 7/1 on tripod 16/49.

Halogen Special - Purpose Lamp. Light aperture 9³/4" (250 mm), 820 yards beam. Clear, non-fluted lens. Black body.

Bulbs: 6 V 55 W YC 655 12 V 55 W YC 1255 24 V 70 W YC 2470 8GH 002 090-06, -12, -24

16/47 9XS 027 639-00

Connecting Piece. Vertically or horizontally adjustable, with hand-locking device.

16/49 8XT 002 117-00

Tubular-steel Tripod, telescoping from 3' 7" to 6' 1".

16/353 8XT 002 121-00

Supporting Base. For mounting the lamp on vehicle roof or other horizontal surfaces.

SPECIAL PURPOSE LAMPS

HELLA Implement Lamps

These lamps are employed for agricultural work, on building sites, for police, emergency and road maintenance vehicles, etc.

They are designed for use under the heaviest working conditions. Robust metal body. Grip for swivel adjustment. Powerful beam. Four fixing bolts. An ideal lamp for night operations and absolutely essential under many working conditions.

130/95 K Black 1S3 001 117-04

Sturdy metal construction. Main and dipped beam. Provision for side light. All black finish. 51/8" (130 mm) aperture. Adjustable hollow fixing bolt 11/16" (18 mm) outside dia.

Bulbs:
