

The Devon Director

This exciting new model from Devon introduces a wide new concept in executive travel.

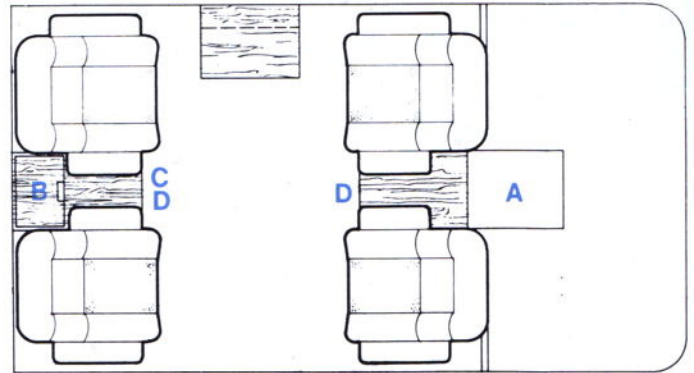

Based on the Volkswagen Kombi, the Devon Director provides the ultimate luxury for fast, comfortable travel for 4 passengers with absolute privacy and a relaxed working environment.

The Devon Director

Side Elevation

Plan

Specifications

BASE VEHICLE

Type II VW Kombi.

2 litre engine (includes servo brakes and radial ply tyres).

Cab seats brushed nylon with fitted head restraints.

Petrol cap, hub caps and wing mirrors chromium plated.

Option: 2 litre automatic engine.

CONVERSION

Trim

Floor covering superior quality Wilton carpet.

Carpet continued up all sides of vehicle to window height on bulkhead between passenger compartment and cab, trim panels to below passenger compartment windows, and on engine slope over engine deck.

Headlining Dralon velour continued to meet carpet below windows and trim around window surrounds.

All body panels heavily insulated with polystyrene foam behind trim panels.

Seating

Four luxury deep foam Pullman type seats, upholstered in first class quality moquette in a design unique to Devon Conversions.

Seat backs continued to head height with large armrests to each side of seat.

Pedestal base to each seat carpeted to bottom of seat base.

Two seats forward facing, two seats rear facing.

Windows

Smoked glass partition between cab and passenger compartment, comprising two panels one of which will be sliding.

Tinted windows fitted all round in passenger compartment, including rear tailgate window.

Anti-glare roller blinds fitted to all windows in passenger compartment. Blinds coloured natural and fixed under window pelmets.

Ventilation

Ventilation provided by twin 12 volt electric ventilators with adjustable speed setting (and facility for blowing air in or out of the vehicle).

Lighting

Lighting by four individual lights recessed into roof, focusing on armchairs. Individual switches located on seat arms.

Conversion Units

Mounted between each pair of seats and underneath inner seat arms are two vertical filing cabinets, access by lifting the hinged seat arms.

Radio Cassette Player located in front of forward cabinet vertically mounted with storage space for cassettes beneath.

Stereo speakers located in central position in the passenger compartment in roof headlining.

Rear seat filing compartment between the seats with storage facilities for calculators and dictation machines.

Small occasional table located on offside trim panel, between two seats, folding down when not in use.

Small magazine rack mounted beneath the table.

A cocktail cabinet fitted between front rear facing seats, the cabinet extending from the bulkhead between cab seats into passenger compartment.

Bulkhead behind rear seats for luggage storage.

All interior woodwork in natural Sapele hardwood finish.

Optional Extras

Refrigerator with ice tray fitted on engine deck between rear seats. Fridge includes a remote controlled compressor in engine compartment, minimising noise of fridge in operation.

Air conditioning to cab and passenger compartments.
