

MOTEL 

A GUIDE TO THE MOTEL VOLKSWAGEN

With the experience we have gained in manufacturing and servicing over 6,000 Campmobiles in Australia, we believe our models offer the ultimate in practical design, materials and versatility.

This year, we have three different Campmobile models from which you can choose. One of them is just right for your family. And just right for your budget.

All of them have a big 2000cc engine, legendary Volkswagen economy and the super Volkswagen reputation for reliability. Just the right package to help you get away from it all.

The choice is up to you.

THE ADVENTURER BASIC

You could call this the Economy Adventurer. It doesn't have full deluxe equipment. But then it doesn't have the deluxe price tag either!

As far as getting away in the economy motel goes, you've got the essential seating and sleeping accommodation and storage, four people need for a great camping holiday. Cooking and refrigeration is not included.

The elevating roof gives you 7' headroom or an upper double berth. The rear seat converts to a double bed. And you have more than enough cupboard space all around the inside. There's a stainless steel sink, water storage, 240 volt power outlet, a mirror and transistorised 12 volt light as well.

Other features include a kangaroo bar, spare wheel re-located outside (padlock and cover)

where it's easily accessible. And a fire extinguisher. Which we hope you never need. But it's good to have on hand.

Of course, your home away from home wouldn't be complete without curtains for complete privacy. And bright interior panels.

This model may be basic in equipment, but no economies have been made in the quality of materials and workmanship, which are of the same standard applicable to all others in the range.

THE ADVENTURER TRAVELLER

Perhaps more than any country in the world, Australia has vast areas of uncivilized natural beauty.

And they can now be seen in a highly civilized manner; with all the comforts of home.

Comforts like a comprehensive kitchen with modern cooking and refrigeration facilities. And yes, even the kitchen sink.

The Traveller package comprises:

- ☐ Modern easy to use gas cooking equipment.

- ☐ A multi-powered 2 cubic foot refrigerator – 12 volt/240 volt/LP gas
- ☐ A 10 lb gas supply, regulator and connections. Fully insulated with required ventilation and complying with gas authority regulations
- ☐ A roof mounted pack rack for bulky equipment
- ☐ An additional portable seat
- ☐ A retractable step.

The Traveller is the go anywhere camper which is happy in the company of caravan parks or places as remote as the Nullarbor Plain.

ADVENTURER DELUXE

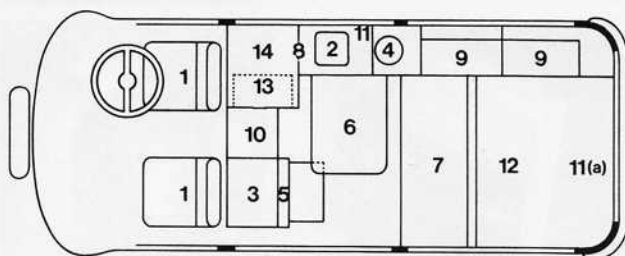

The ultimate five star motel for a family of four. Adventurer Deluxe has all the Basic and Traveller features. Plus all the trimmings for you to get away in style.

Deluxe features are ☐ A stainless steel sink incorporating 240 volt hot plate ☐ An extra 240 volt power point ☐ Upper and lower berth light fixtures ☐ An additional folding table with bottle rack attached to utility cabinet ☐ A 10 gallon, underfloor water tank ☐ Special cloth trim, panels and arm rests.

Adventurer Deluxe. The five star motel you can take anywhere.

CAMPMOBILE BY DAY AND NIGHT

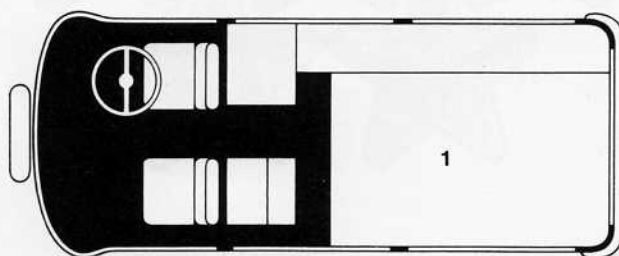

CAMPMOBILE BY DAY.

1 Split front seats. 2 Stainless steel sink with hand-operated pump. 3* Modern cooking equipment (as dictated by the various state

authorities. 4*240 volt hot plate. 5* Built-in fridge. 6 Fold-away table. 7 Rear seat with storage underneath. 8 Mirror. 9 Twin storage lockers. 10* Portable seat. 11 Fluorescent lights. 12 Roof storage. 13 Sliding drawer. 14 Hanging space.

OUR FIVE STAR MOTELS ON WHEELS

Presenting our top of the line Campmobile, Adventurer Deluxe. The ultimate camper for families of 4 or more. It's packed with the kind of features you've come to expect of regular stuck-in-one-spot motels. Fridge, stove, etc. A great start to year round holidaying.

This year's features include modern, easy to use cooking equipment. When you stop at your campsite, you can be cooking and eating within minutes. With no fuss. And with increased kitchen and storage space, you'll think you're driving your own restaurant.

The multi-powered fridge has room for food and drinks for all the family. And the new ten gallon water tank refills handily from the outside. In fact, your Campmobile will take you off to secluded camping spots. And you'll have enough water and LP gas to make you self-sufficient for extended periods.

Other touches include an extra power point; two reading lights; smart new cloth trim on the interior; new cupboard fittings and luxury appointments such as rear arm rests and colour matched trim panels.

When you experience the freedom of the five star motel on wheels, you'll never stay at a regular motel again. After all, who wants to wake up to the same view every morning?

OVERSEAS DELIVERY

European versions of the Campmobile are available for overseas tourist delivery.

Contact your dealer or Volkswagen Australia, PO Box 127, North Ryde, NSW 2113 for full details.

MOTEL ROOM SERVICE

As with all our Volkswagens, your Campmobile keeps a clean bill of health through VW's famous Diagnostic Service.

The scientific system of services that stops little problems from turning into big repair bills. Trained VW dealer staff check out all your Campmobile systems. From brakes, steering, transmission, through to tyres, engine and electrical.

Then they give you a fully detailed report that says exactly what needs to be done. And what doesn't. VW Diagnosis. It works like a kind of holiday insurance that makes sure you'll spend your holiday sampling the pleasures of the open road. And not inside a workshop.

MOTEL EXTRAS

An extra room for your motel!

Our 10' x 7' tent annexe is great for sleeping. Great for entertaining. (Available only as illustrated on inside front cover.)

Mosquito net set. Keep flying pests in the great outdoors. One net for the sliding door. And one for the window.

Screened sliding window. For additional ventilation we can replace the window above the dining table with a screened sliding window.

Other accessories include ☐ Grill covers
☐ Headlight guards ☐ Fog and driving lights
☐ Mud flaps (rear only) ☐ Radio - Transistor
☐ Radio - Hi-power 13 transistor ☐ Radio/stereo cassette ☐ Rear window demister ☐ Pack rack (standard on Adventurer Traveller Pack and Deluxe) ☐ Seat covers ☐ Slick shift ☐ Sunvisor
☐ Tow bar ☐ Weathershield ☐ Wheel brace
☐ Windscreen protector.

N.B. If you plan to operate your Campmobile in 'off road' or dusty conditions we recommend an optional aircleaner. Please consult your dealer.

YOUR MOTEL ON THE MOVE

Our motel has something you won't find in other motels. A big new 2000cc twin carb engine tucked away in the rear. It's very dependable and economical and it can't boil or freeze. It develops more torque for flat freeways and mountain highways.

And because the engine's in the rear, the back wheels get exceptional traction, no matter how tough the going gets off the beaten track.

Our 75 mph motels will give you many thousands of miles before you have to change tyres. A double joint rear axle with independent torsion bar suspension smooths the ride even if you're headed for the Volkswagen Desert Inn.

Our motel also comes complete with Steel radials as standard equipment.

And your option of automatic or manual transmission.

To keep you cool when it's hot and warm when it's cold, we give you a beautiful fresh air/heating system.

And to give you more peace of mind in between stops, we give you 11" power disc brakes up front, extra large pressure regulated rear drum brakes and a dual circuit no-fail braking system to stop you. More on the safety-side, the front section is designed to absorb impact to keep passengers safe.

So our motel isn't just a nice place to live, it's also a nice place to drive.

SPECIFICATIONS

ENGINE. (2 Litre). Four cylinder, four stroke, flat four engine, twin carburettors, rear mounted. Capacity 1970 cc. Compression ratio 7.3:1. Bore x Stroke 94 x 71 mm. Output 51KW (70DIN/81SAE) at 4200 RPM. Maximum torque 143 Nm (new international measurements) at 2800 RPM. Pressure lubrication with oil cooler. Thermostatically controlled air cooling by fan. Downdraught carburettor with automatic choke and accelerator pump. Air cleaner - dry paper filter. Oil capacity 3.5 litres with oil filter change, oil capacity 3.0 litres without filter change.

ELECTRICAL SYSTEM. 12 Volt system, 45A.H. battery - alternator with maximum output of 55 amps 770W. Headlight dimmer switch with turn indicator lever. Self-cancelling flashing indicators. Rheostat controlled instrument panel lighting. Non-repeat starter/ignition switch.

TRANSMISSION. Via diaphragm clutch, full synchromesh four-speed gearbox. Differential and double-joint drive shaft to rear wheels. Gear shift via floor lever. Driving range: 1st, 3.78:1; 2nd, 2.06:1; 3rd, 1.26:1; 4th, 0.88:1; Reverse, 3.28:1. Rear axle - double-joint, each with two constant velocity joints. Optional extra - automatic transmission with hydrodynamic torque converter and automatic three-speed epicyclic gears via floor mounted T-bar.

CHASSIS. Independent suspension and torsion bar springing on front and rear axles. Unitary body, frame plates reinforced with side and cross members. Front axle bolted to frame side members, engine/transmission assembly fitted on four bonded rubber mountings plus one fixed mounting. Hydraulic shock absorbers. Stabiliser on front axle. Positive worm and roller steering gear with maintenance free tie rods and hydraulic steering damper. Turning circle approximately 12.3 metres, 2.8 turns of steering from lock to lock. Wheel base 2400 mm. Steel Belted Radial Tyres are standard equipment; wheels, drop centre rims 5½ J x 14. Disc brakes 279.5 mm up front and 254.00 mm diameter drum brakes in rear with 550 cm of effective rear lining area. The Servo-assisted system has a dual circuit and a brake pressure regulator. Fuel tank capacity approx. 56 litres (12.5 gals). Filler located in right rear panel. Lubrication every 10,000 km. Diagnostic and maintenance service every 20,000 km.
